VISUAL ART IN HIGHER EDUCATION

1979-80

A summary of information from the annual reports of member institutions

ANNUAL REPORT

National Association of Schools of Art

1979-80

Significant findings

NOTE: Of 97 NASA possible respondents, the Committee on Research and Development received 47 completed questionnaires. Because the responses to some questions were inappropriate, confusing, or incomplete, the annual report includes summarized data on only those categories that represented a solid sampling.

Terms: "N" refers to the exact number of institutions within a type whose responses were used in the summary.

"Type" refers to the four main homogeneous groupings of the institutions responding.

If you require any additional information about report data, please contact Bruce Yenawine at the Louisville School of Art (502) 245-8836.

Who reported:

16	Private Independent Schools of Art
7	Private Colleges & Universities
1	Public Junior or Community College
23	Public Colleges & Universities
47	TOTAL

NOTE: If you find the Annual Report useful and did not participate in this year's reporting, please remember the value next November when we conduct the survey again.
